### PROJECTS

#### Project One(Dashboard)

Fully responsive across all devices. Modern and professional design. Smooth scrolling and transitions. Clean and organized code structure. Multiple sections: About, Services, Testimonials, Contact.

#### Project Two(MySkills)

Responsive design for mobile and desktop. Smooth scroll animation. Simple and clean code structure.

#### Project Three(Product\_Page )

Discover a world of endless shopping possibilities at our online store. Browse, choose, and order your favorite products from the comfort of your home.

#### Project Four (Shrimp-Zone)

A sleek and responsive restaurant web application built with React, TypeScript, and Tailwind CSS, offering a dynamic food menu, a fully functional shopping cart, and an elegant modern UI. Deployed on Vercel for lightning-fast performance.
